

# Clement McCrae Puppet Shows

"THE GREATEST SHOW ON STRINGS"

## About Our Shows

[www.FunPuppetShows.com](http://www.FunPuppetShows.com)

Outside Fair and Festivals

Fun for All Ages

Perfect for **your** holidays, parties, business celebrations, community events, festivals, etc.

### Synopsis of Show

Our show is mostly **Marionettes**, with **Rod Puppets**, and **Hand Puppets** all set to **music**. It is set in short little acts performed out front where you can see the puppeteers. The show is quick paced, filled with circus clowns, animal acts, acrobats, dancing poodles.

### Age Appropriateness

This show is truly meant for all audiences and all ages.

Sure, we're going to entertain the kids but we're especially proud that we'll also entertain those other humans (adults) that bring them. Executives will enjoy this as much employees, clients, friends, and family. Toddlers enjoy the moving display of color, and sound; to adolescences that laugh at the funny tricks and antics of the puppets; to adults that can appreciate the very carefully selected and culturally diverse acts and music. This is a **not-just-for-kids-puppet-show**. Our show is about the lush cornucopia of cultures.

If you're having a public event where you want to entertain **EVERYONE**, then you need us. If you want your people laughing. If you want your people smiling. If you want to see that inner child in everyone, then one of our "Fun Puppet Shows" is exactly what you need!!!!

### How long is the show?

Our shows run typically around 30 minutes.

This works wonderfully for multiple shows performed over an all day event. Deep discounts for multiple bookings.

Stefano Bufano  
Elder brother of the Bufano brothers

Bobby and Cora Florsheim  
"The Florsheim Dancers"  
German Polka Dancers

Marleybones

## How long does it take to set up?

40 minutes to set up, although we like to arrive an hour before Showtime.

## What we bring.

We bring our own professional sound system, a traveling backdrop, stage lighting, along with some 20 or so puppets and marionettes. It all comes in boxes on wheels that we roll in and unpack.

## What are our requirements.

- 1) Electricity within reasonable distance.
- 2) Clean open area to work.

## Our space needs.

Our shows are well suited for auditoriums, meeting halls, convention centers, and outside fairs; but can shrink to fit almost any available space. If we are on an elevated stage, a size of 400 or 500 people is perfect. A smaller audience would be wonderfully intimate. If you have a much larger crowd, we can do multiple shows.

## Call to make arrangements for booking
